DTB-7000

10 DEC 1971

**MEMORANDUM FOR:** Acting Deputy Director for Support

**SUBJECT :** DDS Retention of Career Trainees

1. During his briefing of you and Mr. Coffey on the Career Training Program 11 November, [REDACTED] used the figure of 37.26% as the retention rate of Career Trainees in the Support Directorate. This figure included resignations of Trainees still on the rolls of the Career Training Program (CTP) at the time of their resignation. In computing the retention rate excluding the CT still on the Program rolls, then 70% becomes the more accurate figure -- and is in the range of the CT retention percentage of other Directorates.

25X1A

2. In future briefings we will use a percentage figure that represents those CTs permanently assigned to the Support Offices.

25X1A

[REDACTED]  
/ **HUGH T. CUNNINGHAM**  
Director of Training
